Upgrades

PhaserLink Upgrades

Adding PhaserLink to your Phaser 340 makes network management as easy as surfing the net. You can check print status and change print modes using a standard internet browser. Plus if you have internet access, technical support and product manuals are just a mouse click away.

Phaser 340/350 Extended Features Option

Upgrading your Phaser 340 or 350 to the "Extended Features" configuration gives you 600 x 300 dots-per-inch resolution. In addition, your printer can job pipeline, that is, print one image while offloading another from your computer for greater throughput, less waiting, and more productivity. As an added bonus, the "Extended Features" configuration has 69 built-in fonts and can store more downloadable fonts. The 340/350 Extended Features are ideal for fast-paced business workgroups.
